原航空航天部高级工程师蒋春暄（左二）日前荣获欧洲《特勒肖-伽利略科学院》2009 年度金奖，公布的 4 项颁奖理由是：“开发了有助于解决数论领域知名基础性问题的新型数论工具”；“认为黎曼假设是错误的”；“对 iso-数论做出了贡献”；“他的最伟大的成就在于首先证明费马大定理”。面对学术争论，蒋先生不妥协，不放弃，终获此殊荣。几十位已退休的科学界的朋友们昨日到机场祝贺他凯旋。大家说，这是献给祖国 60 岁生日的最好礼物。Jiang Chun-xuan (2nd from left), senior engineer originally worked at Ministry of Aeronautics Industry recently received the Telesio – Galilei Academy of Science 2009 gold medal award. The 4 reasons announced for receiving the award: “for the developed of new number theoretic tools to help in the solution of known fundamental problems in number theory”; for “recent claim that the Riemann Hypothesis is false”; “made contributions to iso-number theory”; “his greatest achievement lies in proof of Fermat’s last theorem”. Facing academic controversy, Mr. Jiang did not give up and eventually received this glorious award. Several dozen already retired friends from the science community yesterday went to the airport to congratulate his triumph return. Everybody said, this is the best present to the 60th anniversary of motherland.
